SKILLS

Python

SQL

Excel

HTML

CSS

LANGUAGES

English — Fluent

Swahili — Fluent

French — Basic

STRENGTHS

- Data visualization & reporting
- Python automation & scripting
- Responsive web development
- Cross-disciplinary design eye

PROFILE

Data Analyst and Developer with a background in graphic design, focused on turning raw data into clear, decision-ready insights. Comfortable across the full pipeline — from cleaning and querying data to building the dashboards, scripts, and websites that present it. Currently deepening expertise in SQL, Power BI, and Tableau while applying Python and web development as supporting skills.

SERVICES

- Data Analytics — building dashboards and reports that drive decisions
- Data Entry — fast, accurate data capture and cleanup
- Python Development — automation scripts, scraping, reporting tools
- Website Development — responsive, modern websites and portfolios

FEATURED PROJECTS

Sales Performance Dashboard

Interactive dashboard tracking regional sales, KPIs, and trends for a retail dataset.

Automated Report Bot

Python script that scrapes, cleans, and emails a weekly performance report automatically.

Business Landing Page

A responsive, conversion-focused landing page built for a small local business.

Inventory Tracker

SQL-backed inventory system with an Excel reporting layer for stock and reorder alerts.

EDUCATION

Architecture — Current Studies

Pursuing a degree in Architecture while building a parallel career in data analytics and development.

CURRENTLY LEARNING

- SQL — query writing and database fundamentals
- Power BI — dashboarding and business intelligence
- Tableau — advanced data visualization

WHY WORK WITH ME

A design background means the output isn't just correct — it's readable at a glance. I bring that same attention to every dashboard, script, and site I build, with fast turnaround and direct communication throughout.
